

THE CITY OF  
**CHEBOYGAN**

## News About Your Neighborhood

The City of Cheboygan would like to inform you about a sanitary sewer evaluation project that will be completed in your neighborhood. With the help of their Consulting Engineer, Hubbell, Roth & Clark, Inc. (HRC), the City will be conducting the following field investigations: manhole inspections, smoke testing, and downspout surveys. Field investigations will begin September 27, 2021 and continue into early December 2021. The smoke testing will occur between late October and early December of 2021. Door hanger notification will be distributed 24-48 hours prior to the start of the smoke test in your neighborhood.

**For more information please refer to the Sewer System Evaluation Study post on [www.cheboygan.org/news/](http://www.cheboygan.org/news/).**

HRC field personnel will be wearing safety vests and driving HRC labeled vehicles. Crew members may need to enter onto private property to record observations. Every effort will be made to minimize your inconvenience. If you have any questions, feel free to contact one of the people listed below.

**Jennifer Morreale, PE., CFM**  
HRC Project Manager  
(248) 535-3320

**Nate Coffin, EIT**  
HRC Field Representative  
(248) 318-9410

**Jason Karmol**  
City of Cheboygan
